Your task is to generate a comprehensive day-by-day travel itinerary for a [Insert Duration: e.g., 10-day] trip to [Insert Destination].

Specific Constraints:

- *Dietary Preferences: The group requires [Insert Food Preference: e.g., strictly vegetarian / halal / gluten-free] options. You must identify specific highly-rated restaurants for lunch and dinner each day that cater to this diet.*
- *Pace: The trip should be [Insert Pace: e.g., leisurely with breaks / packed and fast-paced].*
- *Dates: The intended travel period is [Insert Month/Season]. Please confirm if this offers good weather or suggest a better alternative.*

Use a professional and organized tone.

- *Logistics: Include flight recommendations from [Insert Departure City], visa requirements/costs, and local transport options (public transport vs. taxi costs).*
- *Accommodation: Recommend hotels that are rated 4+ stars, have good reviews, and are central to tourist spots.*
- *Budget: Provide a per-person cost estimate at the end.*

Present the final output in a clear, structured format:

1. *Summary: Best time to visit, flight/visa details.*
2. *Itinerary Table: A day-by-day table including:*
    - *Morning/Afternoon/Evening Activities (with closure timings).*
    - *Specific Meal Spot: Name of a restaurant matching the dietary preference near that day's activity.*
    - *Transport method between spots.*
    - *Estimated costs (tickets/transport).*
3. *Accommodation List: 3 distinct options (Budget/Mid-range/Luxury).*
4. *Cost Breakdown: A final table showing estimated total cost per head.*
